

CLOSED STERILE
WATER SYSTEMS

CLOSED STERILE
WATER SYSTEMS

AQUAPAK® Prefilled Humidifiers

Can be used with several patients as long as the tube systems is exchanged each time.
Thanks to the Silent Humidifier Adaptor there is no whistling noise, even with extremely high flow rates.
The complete set with enclosed insufflation adaptor facilitates handling.

AQUAPAK® Prefilled Ultra-sonic Nebulizer Cups

The sterile water cup is compatible with all current ultrasonic nebulizer machines.

AQUAPAK® Prefilled Nebulizers

Versatile sterile system to provide cold or heated nebulization.
Choose from a wide variety of reservoir sizes and adaptors to meet specific patient requirements efficiently and economically.

CONCHAPAK® Thermal Humidification

Closed sterile water system for use with CONCHATHERM.
Compatible with all current active humidification systems with column.

AT A GLANCE

Closed sterile water systems

- increase safety in hygienic application
- facilitate daily handling
- are efficient and economic

PRODUCT INFORMATION

AQUAPAK® Prefilled Humidifiers

Ref.	Description	Qty
400340	AQUAPAK® 340, 340 ml with humidifier adaptor	20
400640	AQUAPAK® 650, 650 ml with humidifier adaptor	10
400011	AQUAPAK® SILENT humidifier adaptor	50

- can be used with several patients provided the tube system is exchanged each time
- increased economy since product is not resterilized
- no whistling noise, even with high flow rates, thanks to the SILENT humidifier adaptor
- complete set with enclosed insufflation adaptor facilitates handling

AQUAPAK® Prefilled Nebulizers

Ref.	Description	Qty
404428	AQUAPAK® 428, 440 ml sterile distilled water for nebulization and inhalation, with nebulizer adaptor 028	20
403728	AQUAPAK® 728, 760 ml sterile distilled water for nebulization and inhalation, with nebulizer adaptor 028	10
404128	AQUAPAK® 1028, 1070 ml sterile distilled water for nebulization and inhalation, with nebulizer adaptor 028	10
403128	AQUAPAK® nebulizer adaptor	50
403700	AQUAPAK® 760, 760 ml sterile distilled water for nebulization and inhalation	10
404000	AQUAPAK® 1070, 1070 ml sterile distilled water for nebulization and inhalation	10
050-12D	AQUATHERM® III, electronic heater for thermal humidification (nebulization)	1

- Venturi adaptor for cold or heated nebulization
- spectrum of aerosols suitable for efficient therapy
- increased economy since product is not resterilized
- sturdy heater ensuring long economic lifetime

AQUAPAK® Prefilled Ultrasonic Nebulization

Ref.	Description	Qty
409301	AQUAPAK® 2300, set for ultrasonic nebulization	4
405200	AQUAPAK® 150, sterile water cup 150 ml	24
408040	AQUAPAK® long-term feeding adaptor with level regulator for ultrasonic nebulization	50
404200	AQUAPAK® 2200, supply or supplementary reservoir 2200 ml	4

- 2200 ml supply reservoir greatly increases economy thanks to large-content bottles and reduced amount of waste
- compatible with all current ultrasonic nebulizer machines

CONCHAPAK® Thermal Humidification

Ref.	Description	Qty
438520	CONCHAPAK® set, 1650 ml supply reservoir with low-compliance column	6
438220	CONCHA® low-compliance column for thermal humidification	24
438150	CONCHA® 1650, 1650 ml sterile distilled water, supplementary reservoir	6
388-28	CONCHA® nebulization adaptor	30
400-10	CONCHATHERM® IV, microprocessor-controlled device for active humidification	1

- complete system for climatization of respiratory gases, nebulization and warm oxygen insufflation
- optimal evaporation surface of column provides 100 % relative humidity
- compatible with all current closed humidification systems
